**SUBJECT:** **COLLABORATION BETWEEN IAMD AND JCBRN DEFENSE COE**  
**No:** **10.g**  
**ENCLOSURES** **(NU) IAMD COE\_CBRN COE\_Colloboration\_Diagram\_v1.0 Ppt**

**PURPOSE:** To inform the SC about the proposal from Senior BMD Systems Engineer and IAMD COE SME at ACT Staff Element Europe, Mr Metin BUGRU, about possible collaboration between IAMD COE and JCBRN Defense COE

**BACKGROUND:** IAMD COE is a newly accredited COE building its knowledge and experience in full spectrum of TBMD. CBRN is one of the key areas in TBMD. A successful TBM Threat interception or a TBM threat impact on or near a critical asset will create several consequences. CBRN is one of the most important one.  
Collaboration and integration between IAMD COE and JCBRN COE is essential and very important for:

- a) Quick, effective planning and coordinated execution (early warning sharing, civilian evacuations, contaminated area calculations. e.g.)
- b) Better and fully coordinated for NATO Civilian [Host Nation, EU, e.g.] interfaces.

**ANALYSIS & STATUS:** Mr Metin BUGRU, has raised and captured an area where IAMD COE and JCBRN Defense COE can collaborate and study together further to discover new innovative solutions, exercises, workshops, e.g. He has prepared a presentation and informed about this initiative JCBRN COE SME, FOGO Champion, COEs. Mr Metin BUGRU suggests that a study or workshop could be developed in the near future.
