SUBJECT: **Combined Air Operations Centre (CAOC) - IAMD Tactical Education and Training.**

No: 9

PURPOSE: SC to approve the request for support of CAOC in providing SMEs to conduct IAMD Tactical Education and Training whose aim is to educate IAMD community at the level of CRC/JFAC and make contributions to NATO Multi-Domain Operations concept. IAMD COE also foresees opportunities to enhance the efficiency of SBAMD CET-P by being a part of the activity.

BACKGROUND: As one of the IAMD Community of Interest CAOCs support SBAMD CET-P Course with instructors and its experience in NATO Air Campaign Planning, Tactical Battle Management Functions, SBAMD Planning Process/Principles, Current Operations and SBAD integration into NATO C2. CAOC - IAMD Tactical Education and Training is regarded to have a considerable contribution to the skills and knowledge of the Centre's SMEs. The linkage between SBAMD CET-P Course and IAMD Tactical Education and Training has also proved a wider perspective for the COI to bring an additional opportunity to SBAMD CET-P Course serving as a prerequisite step for educating SAM Allocators and SAM Controllers in SBAMD Operations. Such an opportunity may lead SBAMD CET-P become a certified course together with CAOC Simulation Training.

ANALYSIS & STATUS: IAMD Tactical Education and Training consists of two phases:

- Speaker/instructor standardization seminar,
- Academics, practical C2 workshops and IAMD centric C2 simulation vignettes.
