SUBJECT: **Report about the Construction of IAMD-COE new building**

No: .17

REFERENCES

PURPOSE: SC to be noted about progress of the construction of the new IAMD-COE building

BACKGROUND: The construction of the new IAMD-COE building has been initiated on December of 2022 and according to the supervising authority it is planned to be finished approximately by the end of 2024 providing to the IAMD-COE personnel upgraded capabilities.

ANALYSIS &
STATUS:

According to the FN plans the new building is being constructed near the NMIOTC premises (approximately 1km). The main purpose is to provide enhanced capabilities to all IAMD-COE personnel and at the same time fulfill all the necessary safety and security regulations based on NATO standards.

The new building will have two floors and a basement. Approximately every floor will be 450m². In the ground floor except the Directorate's offices there will be a multi purpose room that can host approximately 40 persons. This room will be used in the future to host workshops-courses- SC meetings as part of IAMD-COE mission. In addition this floor will have a space that can be used as a dining room and provide the ability to host lunches and coffee breaks for

the attendees of future courses-workshops. In order to enhance the Centre's MS capabilities the basement of the new building was proposed to change by creating six (6) Red and six (6) Black workstations. Also the basement will have connectivity with the Combining Federating Battle Laboratories (Red Enclave) network (CFBLNet) and was requested to meet all security requirements by ensuring the connection with alarm, fire safety, and camera systems.

The second floor will host the SME's offices and the Support Branch. All SME's offices will provide NS connectivity, unclassified internet connectivity and voip telephone. Finally all the new promises will have Wi-fi connectivity to the internet.

FINANCIAL
CONSIDERATIONS
& FUNDING
